

Minutes SCC Meeting September 17

1) Welcome New Members- Jill Baillie, Karla Jimenez

- introductions of parents, staff, and faculty, students
- gave parents the calendar of meeting times and suggested topic items – Parents have a chance to win a gift card for attending SCC and Glendale Counselor topic

2) Vote for Chairs- Karla Jimenez and Rosie Peralta

- We keep the aforementioned two chairs as they serve for two years

3) Counselor Report- Cassidy Bell

- Counselor goals – growth in student RI scores, Attendance Initiative with a grade element, Support tier 2 interventions including small groups and CICO
- Counselors gave a survey to students in advisory asking students to rate themselves on their social and emotional competencies, based on the CASEL and SLCSD framework. 287 students participated in the survey. The survey also included a question asking students what areas they would like help from counselors, students rated “friendship skills,” and “stress management.” Small groups were created with the Wellness Team for these topics
- This year counselors support **ALL** students through advisory lessons and by meeting with each of their grade level students individually to develop a CCR plan and discuss academic goals (including RI). Advisory focuses on Glendale expectations and school climate items; SLCSD SEL framework topics; and mandated lessons including bullying prevention, suicide prevention, and vaping. Counselors support **SOME** students by analyzing attendance, behavioral, and grade data and individualizing interventions accordingly. This could be meeting weekly, CICO, small groups, or referrals to partner services. Counselors work with a **FEW** students with higher levels of support including weekly meetings or referrals to outside services.
- HB 58 - Based on SHARP survey data there has been a significant increase in the use of vape and E-Cigs by our students. As a result, of this new trend we are now required to teach prevention for use of these items. Counselors are streaming lessons from Botvin to meet the mandate. Counselors cover district policy for consequences if found using the devices on school campuses. Students fill out a Microsoft Form stating they received and understand the lesson. Lesson translated in Spanish in the ELD 1 classes. Parents interested in a follow-up lesson. Scheduled 1/28 by the SL County Public Health Center.

4) SIC Report- Jill Baillie

- Covid protocols reviewed and vetted by district
- Introduced new middle school teaming model
- Reviewed tardy and attendance data from 2019 before the dismissal

5) Let's Do This Thing Called Class Campaign-Jill Baillie

- Stressed importance of attendance and being on time for class and how it benefits high schoolers and future goals
- See attachment

6) Your Child is More Successful when We Stay Connected Campaign-Jill Baillie

- stressed the importance of having correct contact information from parents
- talked about parent training nights for PowerSchool and Canvas
